

CORNER DETAILS

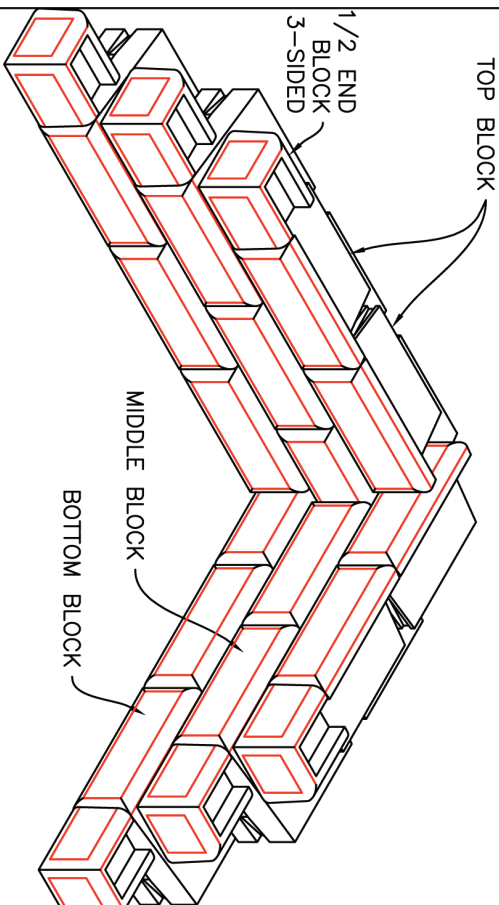

OUTSIDE CORNER

THE FREE STANDING CORNER BLOCK ALLOWS INTERLOCKING 90 DEGREE CORNERS WHEN USED WITH RETAINING WALL BLOCKS.

NOTE: BECAUSE EACH RETAINING COURSE HAS A 1 1/2" BATTER, CORNER BLOCK MUST ALSO BATTER BACK 1 1/2" IN BOTH DIRECTIONS. THIS MAY OFFSET THE BOND BEAM BY 1 1/2" AS WELL, BUT IT IS TOTALLY ACCEPTABLE WITH THE ROUGH FACE.
