A New Look: Redi-Rock Ledgestone face gives retaining walls an unparalleled natural look. From the innovators at Redi-Rock comes an entirely new face for the massive Redi-Rock blocks you've come to know and trust. Please call your local manufacturer for regional colors.

## LEDGESTONE

THE NEWEST TEXTURE  
IN THE REDI-ROCK  
FAMILY OF PRODUCTS

### The Challenge

You need a structural retaining wall, but you also need a wall that looks good. For the past ten years, Redi-Rock's Limestone and Cobblestone faces have led the industry in "The Essence of Natural Rock" look. Now, we're taking it one step further with the game-changing Redi-Rock Ledgestone face.

### The Solution

The Ledgestone face creates texture and gives walls a random, natural look. The texture on each block makes individual blocks nearly indistinguishable, giving the impression of a natural, random stone wall. Featuring integral, rich coloring, Ledgestone is like nothing else available on the market today.

Redi-Rock Ledgestone is the perfect solution for projects that need to look good. Structurally, Redi-Rock Ledgestone blocks are the same as Redi-Rock blocks you have worked with in the past—the same massive dimensions, quality and ease of installation you've come to expect. At one ton each, you can build tall gravity walls using Ledgestone, and even taller walls with reinforcement.

Contact your local Redi-Rock manufacturer or visit [www.redi-rock.com](http://www.redi-rock.com) to learn more about the Redi-Rock Ledgestone face today!

### MIDDLE BLOCK

Weight: 2400 lbs.  
46" x 41" x 18" High  
5.75 sq. ft. of face

### NO GEOGRID OR TIE-BACKS IN MANY APPLICATIONS

Redi-Rock blocks harness the power of gravity. Smaller block systems require time-consuming and costly reinforcement to reach the same heights.
